KMA Contracting Inc. has won the 2010 Ontario Builder Award for the 401 Screen Structure & Town of Halton Hills Monument project they completed for Transcanada Energy Ltd.

The award was presented by the Ontario General Contractors Association at their Construction Symposium which was held at the Blue Mountain Resort in Collingwood on March 31, 2011.

Designed by Toronto's Joseph Bogdan Associates Inc., the screen design, scaled to the highway, is an illuminated arc of approximately 160 metres in length. The award's strict criteria included client and trade satisfaction, innovation, health and safety, quality of workmanship and complicity of project. KMA Contracting completed the project in the 180 day construction schedule and with no extra costs.
