Library addition

The Wellington County Library in Rockwood, Ontario.

KMA has just completed a 1,250 s.f. expansion of the Rockwood library for the Township of Guelph / Eramosa. This new addition will be used as a dedicated space for older adults. "We are very excited to open the new Rockwood Older Adult

Centre to offer greater opportunities for active living and social interaction for older adults in our community" said Mayor Chris White at the opening ceremonies in November. The centre features a kitchenette, social gathering area, a

Blue Mountain's new expansion

THE \$10 million conference / tennis hall expansion at Blue Mountain Resort is complete and open for business. This much anticipated expansion provides over 46,000 s.f. more space, allowing the resort to host conventions and trade shows in its large multi-functional venue named The Courts. The facility is a combination of conventional

construction with an engineered metal feature building enclosing the new tennis hall and convention floor.

The project was not without its

challenges. Despite the heavy odds of working through one of the worst winters on record (and one that kneecapped the economy and coined a new term "polar vortex"), the KMA team managed to push ahead and succeeded in completing the project two months ahead of schedule. The first convention took place on May 23.

Structural steel framing takes shape.

Hydro One project

KMA was awarded the contract by Cooper Construction Ltd. to build two Butler engineered metal buildings for Hydro One. These buildings will be used for service and storage at Hydro One's new operating facility in the south end of Guelph.
